Dear Mrs. Olsen:

Attached is a copy of the response from the Illinois Department of Transportation in reply to our letter of March 11, 1975, concerning DOT requirements at the subject site.

The "Proposed 100 year Flood Level" is the same as the proposed site berm and, thus, the outer limits of the fill.

We trust that this will satisfy your requirements.

Sincerely,

David L. Beck

Dear Mr. Beck:

Receipt is acknowledged of your letter dated March 12, 1975, concerning land fill in the flood plain of Kickapoo Creek.

We have reviewed the plans you submitted and are assuming that the line you designate as "PROPOSED 100 YR. FLOOD LEVEL" is your limit of fill.

If that is correct, the fill is sufficiently far from the bank so as to not be washed into the channel. Therefore, no permit will be required from this office.

Yours very truly,

Leo M. Eisel
Director
